## SUMMARY

Research Scientist at Google DeepMind specializing in post-training, model souping, and data-centric machine learning for large foundation models. PhD in Computer Science from EPFL under the supervision of François Fleuret and Pascal Frossard. My research investigates how both data and weight-space geometry shape model behavior—developing principled methods to understand the role of data in generative models and to efficiently combine, edit, and adapt pre-trained models across tasks.

## PROFESSIONAL EXPERIENCE

Google DeepMind

**Research Scientist**

- I work on understanding how data shapes foundation models, building scalable methods to measure and leverage the impact of data on generative AI systems

 Zurich, Switzerland

 Sept 2026 – Present

Google DeepMind

**Student Researcher**

- Conducted research on Gemma post-training methodologies
- Hosted by Ghada Sokar, and also collaborated with Gintare Karolina Dziugaite and Alexandre Ramé

 Amsterdam, Netherlands

 Sept 2025 – Dec 2025

Google DeepMind

**Student Researcher**

- Conducted research on text-to-image generative models to improve their capabilities to generate well-formed, correctly spelled and coherent visual text in multiple languages.
- Hosted by Sourish Chaudhuri and Luciano Sbaiz
- On site and full-time Dec 2023 - Feb 2024, remote and part-time Mar - Dec.

 Zurich, Switzerland / Remote

 Dec 2023 – Dec 2024

École Polytechnique Fédérale de Lausanne (EPFL)

**Doctoral Assistant**

- Specialized in multi-task learning and model merging. My research led to state-of-the-art algorithms for efficient and continuous parametrization of the Pareto Front, and improved the compression and downstream performance when merging large pre-trained models post training.

 Lausanne, Switzerland

 Oct 2020 – Sept 2025

## EDUCATION

École Polytechnique Fédérale de Lausanne (EPFL)

**PhD in Computer Science**

- Research focus: Model Merging, Multi-Task Learning and Pareto Front Learning
- Advisors: François Fleuret & Pascal Frossard

 Lausanne, Switzerland

 Oct 2020 – Sept 2025

National Technical University of Athens (NTUA)

**BSc & MSc in Electrical and Computer Engineering**

- Thesis: “Tropical Geometry and Applications in Machine Learning and Optimization”
- Advisor: Petros Maragos

 Athens, Greece

 Sept 2014 – Sept 2020

## AWARDS

---

- Citadel PhD Summit in London 📅 Apr 2025
- SNF/ACG Study Abroad Program Scholarship 📅 Jul 2019
- ACG Merit Scholarship & SNF Scholarship 📅 Sept 2018 - Jun 2020
- Right to Virtuosity Distinction 📅 Jun 2018
- Classical Guitar Degree 📅 Jun 2018
- "The Great Moment for Education" Eurobank EFG Scholarship 📅 Oct 2014
- Sœur Sébastienne Scholarship 📅 Oct 2007 - Jun 2014

## TEACHING & SUPERVISION

---

- Courses: Deep Learning, Fundamentals of Inference and Learning, Probability and Statistics
- Supervised 7 MSc theses (Swisscom collaboration), 1 BSc thesis, 2 semester projects, and 1 research assistant (2020–2026)

## ACADEMIC SERVICE

---

Reviewer: NeurIPS, ICML, ICLR, TMLR

## LANGUAGES

---

English (fluent), French (intermediate), Greek (native)
